

PD Series Pendulum Spreaders Precision Application, Heavy Duty Performance!

Designed and constructed for commercial/professional operations, the PDSP and PDSPC Pendulum Spreaders offer ease of operation, precision material application, and dependable and trouble free service year after year. The penduler distribution system permits easy operator adjustment of the spreading width in the field. Low profile, high strength hoppers assure greater maneuverability while allowing more time in the field and less time traveling and refilling. Backed by Unifarm's "No Nonsense" parts and service support, these machines will perform when and where you need them!

| Model | PDSP-500 | PDSP-1000 | PDSPC-400 |
